ATMOSPHERE

RIQUEZA...

Es el resultado de pequeños elementos combinados entre sí, de algo que se multiplica exponencialmente. Atmosphere es la apuesta por espacios rotundos, con carácter y capaces de brillar con luz propia. Un poco de Atmosphere es el contrapunto perfecto a la sobriedad de los pavimentos.

WEALTH...

It is the result of small elements combined with each other, of something that multiplies exponentially. Atmosphere is the commitment to strong spaces, with character and able of shining with their own light. A little bit of Atmosphere is the perfect counterpoint to the sobriety of the flooring.
